

ColorPrint™ Soft

ColorPrint™ Soft is ideal for white or light colored fabrics and is ultra-thin! At only 30 microns, this is the closest look and feel to screen printing among digital transfer materials. Use on any light colored fabrics where you want vibrant colors with a soft feel – and it gets softer after washing! Multiple pieces is where ColorPrint™ Soft shines. It doesn't require a mask, so you simply print, cut, weed, and heat apply. Simplicity and a soft hand in one printable material!
