

ColorPrint™ Soft Opaque

Now you can get the soft hand and vibrant colors of original ColorPrint™ Soft... but as an opaque material! ColorPrint™ Soft Opaque gives the same soft hand but can be applied to any color garment. ColorPrint™ Soft Opaque is an extremely thin PU printable vinyl at just 45 microns! Despite being very thin, it easily goes on dark polyester, cotton and Lycra®/Spandex fabrics. Not only is ColorPrint™ Soft Opaque lightweight but it can stretch. It is not recommended for Sublimated fabrics.
