

EasyWeed Glow™ is a white polyurethane heat transfer vinyl that looks great in the daylight and glows in the dark! Glow is available in white and it cuts and weeds like our popular EasyWeed™ heat transfer vinyl. You “charge” the material by exposing it to sunlight. The more light you give it, the more it glows in the dark! Great for crafters looking to create kids’ pillow cases with messages they can see when they go to bed and great for simple Halloween costumes!

Adheres to:

- 100% Cotton
- 100% Uncoated Polyester
- Poly/Cotton Blends
- Leather

Specifications:

- PU composition
- Pressure sensitive backing
- Matte finish
