Introducing Recasens High Performance Fabrics

NEPCO is proud to be affiliated with Recasens USA. 100% Solution Dyed Acrylic Marine, Awning, Umbrella Fabrics, Waterproof Marine products, PVC coated fabrics, Outdoor Furniture and Shade Screen fabrics.

Recasens is the leading awning fabric in Europe!

S.A. Recasens is a fifth generation, family owned business founded in 1886. Recasens owns its own spinning, weaving, coating and finishing facilities, as well as offering full service R&D, design and testing services. Recasens USA has built its reputation as a powerful force in the textile industry by manufacturing high performance textiles, including the top rated Recacril® 100% solution dyed acrylic marine and awning canvas.

Recasens is the chosen supplier for many leading OEM manufacturers in the Marine and RV industries. Customers include Carefree of Colorado, manufacturer for the global OEM and Aftermarket RV market, and OEM boat companies Stingray, Cobalt, and Rinker power boats and Ameritex Fabric Systems to name a few.

Cut Yardage Available for All Fabrics

SUNGUARD THREAD

UVR BONDED ANTI-WICK POLYESTER

NEW FROM NEPCO

“SUNGUARD” 92 and 138

“The designer polyester thread”

SUNGUARD has a custom color line to match 36 of the most popular acrylic fabrics in the awning-marine industry today. SUNGUARD is twisted and bonded through a state-of-the-art bonding and dyeing process, to ensure the highest quality of colorfastness and performance. Every SUNGUARD product is manufactured to meet anti-wick standards, which reduces seam leakage. Each production lot is tested to meet or exceed Quality Assurance standards.

MARINE TRACKING

NOW STOCKING COSTA TRACK AND FLEX-A-RAIL II!

COSTA TRACK

Costa Track® is far superior to anything else currently in use. Designed to replace the old flange type track and used for a variety of enclosure applications. Costa Track® features:

- Beefy rigid PVC construction for exceptional strength.
- A pocket on the flat flangeless version for 3/4" VHB tape, eliminating the need for caulking in marine applications.
- A built-in countersink for the seating of pan, flat and oval screw heads also allows welt to slide through unobstructed.
- Strength, yet it has the flexibility to be heated and bent around many radius.
- Pre-drilled holes every 4" for quicker installation.
- Colors to match your enclosure, Costa Track® comes in white and off-white.
- Use 8.5 Keder Welt for this track.

Flangeless

Concave

Stocked in these Sizes

SKU	Description	Size
T240W-REGULAR	Awning Rail, Plastic Track - Offwhite	3/8' ID x 24' Length - Flangeless
T80W-CONCAVE	Awning Rail, Plastic Track - Offwhite	3/8' ID x 8' Length - Concave
T24W-REGULAR	Awning Rail, Plastic Track - White	3/8' ID x 24' Length - Flangeless
T8W-CONCAVE	Awning Rail, Plastic Track - White	3/8' ID x 8' Length - Concave

FLEX-A-RAIL II

Flex-A-Rail II is a Light Weight Flexible PVC Track that can be heated and bent around many radius. This track is not pre-drilled and a #6 Flat head screw is recommended. Use 7.5mm Keder Welt for this track.

AMERICAN KEDER - "WELDED FLAP" AVAILABLE IN CUT YARDAGE!

**NOW
STOCKING!**

What is Keder "Welded Flap"?

Keder is specifically designed for use in outdoor tensile structures where strength and resistance to elements is crucial. Keder is a unique construction of heavy duty polyester-coated fabric welded to a cord of solid PVC material, resulting in a very strong, flexible and slippery track welting that slides and effortlessly bends and curves.

- Extremely strong and flexible!
- Effortlessly bends and curves with ease!
- Resists most elements that would normally damage regular welded flaps.
- Meets NAFTA requirements for duty free entry into Canada and Mexico.
- Available in 7.5mm or 8.5mm core welded diameters.
- Available in White or Black.
- Available in **110 yds and Cut Yardage!**

Available stocking items from American Keder

BOAT VENT CAP & MOORING POLE

Boat Vent II (Top) is attached to a **Mooring Pole** (Bottom). By cutting a hole in the fabric and attaching the vent, it will allow the stale air to flow out of the boat and allow fresh air in to keep down on mold and mildew. **Boat Vent II** is made from a high UV Resistant Plastic and will fit on either a 3/4" or 7/8" O.D. Tubing.

SKU:
X70A-2-TIP-POLE
70" Mooring Pole

Our new telescoping cam lock support poles have been tested to hold up to 170 lbs. That's over twice the weight of standard thumbscrew mooring poles. They have a die cast collar and stainless steel components. The aluminum tubing is anodized, heat treated and has a ribbed profile for increased strength and lightweight. You may choose from one of 3 tip options, (snap, swedge, or plug. All in one, by reversing the inner pole.)

We use fully synthetic TPR rubber grey bottom crutch tips that will not scuff or mar your boats flooring. Poles adjust from 38 1/2" to 70" height. The swedge will fit a #3 spur grommet and the snap tip accepts standard type durable-dot socket.

VINYL WINDOW CLEAR

OSEA AND REGALITE

OSEA EXTRUDED

DOUBLE PRESS POLISHED SCRATCH RESISTANT!

The O'Sea glass is the newest technology of Vinyl Window Clear. O'Sea has formulated the base compound for maximum UV stability and the press polishing process ensures optimized clarity. The O'Sea coating is specifically engineered to provide a superior scratch resistant barrier without compromising the hand or flexibility of the sheet. This unique chemistry also gives the O'Sea sheet exceptional chemical and stain resistance. O'Sea is manufactured of thermoplastic vinyl material.

- Osea is perfect for Marine Windows!
- Osea is perfect for Marine Cabin Enclosures!
- Osea features a scratch resistant coating for harsh marine environments.
- Keeps out harmful environmental contaminants and damaging sun exposure.
- Exceptional weathering and UV stability.

REGALITE EXTRUDED

DOUBLE PRESS POLISHED MARINE GRADE SHEETS

Regalite® press polished sheets are manufactured of thermoplastic vinyl material with a highly polished finish to form a flexible, press polished sheet. These products offer superb dimensional stability, excellent clarity and weathering capabilities, good RF and heat sealability. Each meets or exceeds the material requirements of the Department of Transportation (DOT) and the American National Standards (ANSI)

- Regalite is perfect for Marine Windows!
- Regalite is perfect for Marine Cabin Enclosures!
- Regalite is perfect for Patio Enclosures!

NEW AT NEPCO!

makrolon® AR

The Best Polycarbonate Window Made.

Abrasion-Resistant, Crystal Clear .060" Polycarbonate Sheeting for Marine Enclosures

Abrasion and Enhanced UV-Resistant Polycarbonate Sheeting that Offers **Glass-like Clarity and Hardness**, Coupled with the Impact Strength of Standard Polycarbonate.

Superior Glass-like Clarity
Less Distortion Compared to
other Marine Clears

EXTREME STRENGTH!
250X the Strength of Float Glass
10 Year Breakage Warranty

Highly Abrasion Resistant
Scratch-Resistant Coated
on Two-Sides

**Excellent
Weathering Resistance**
Highly UV / Yellow Resistant
5 Year Weathering Warranty

Easily Sewn Using Standard Equipment

.060" Makrolon AR can be sewn using a diamond tip needle. Depending on the thread gauge you may be able to use a #20, #22, #23 or #24 needle. **It's been successfully sewn with V-138 thread using a #23 needle.**

It's very important to use a sharp needle, and a new needle is recommended for each job.

DOT FASTENERS

Fasteners that Last!

NOW STOCKING!

NEPCO Stocks High-Quality DOT Fasteners!

Lift-the-DOT, Common Sense, DOT Durable and Pull-the-DOT!

Lift-the-DOT®

Strong and heavy duty, Lift-the-DOT fasteners lock on three sides and are opened by lifting the fourth side where the DOT and the Lift-the-DOT trademark appear.

Common Sense®

Positive locking fasteners that will never open accidentally. Each stud is assembled with a spring mechanism, holding the fastener under tension until turned by hand.

DOT Durable™

When superior snap action and holding strength is needed, Durable is the fastener to use. Self-piercing, so no pre-punching is required, the Durable fastener's heavy-duty construction assures a firm grip that will remain secure through years of use.

Pull-the-DOT®

A heavy duty, three sided locking snap fastener that is built to withstand extreme pressure on three sides without unlocking. When pulled on the fourth side where the Pull-the-DOT trademark appears, the fastener releases instantly.

Additional series are available. Call today for more information!
